\$22,559,444 = Total Amt. to be Allocated

*The SDWLP must allocate a minimum of 15% of the available funds in each fiscal year to public water systems that regularly serve fewer than 10,000 persons. Communities marked with an asterisk meet this criterion. The policy for allocating funds to small communities is included in the SFY 2007 funding policies.

**Projects that have a "Yes" in the Elig. for 33% of Market Interest Rate column are projects of municipalities with a population less than 10,000 and a median household income (MHI) that is 80% or less of the state's MHI.

"TBD" means To Be Determined. The SDWLP does not yet have a median household income from the U.S. Census Bureau for this municipality. Therefore, the SDWLP cannot yet determine whether this municipality is eligible for the 33% of market interest rate.

Note: The above list is a draft for informational purposes only. The SDWLP can't allocate funds to any projects until EPA approves Wisconsin's capitalization grant for the year.
